ONE COPY—ONE CENT.

THE MAGIC EYE
Featuring the wonderful Juvenile Star Zoo the feature extraordinary at the Pastime Monday, June 3. A thrilling drama in five acts. All star cast.

JUNE MEETING POSTPONED
Owing to the absence from our city of a number of the Kings daughters the June meeting will be omitted.

Miss Rebecca Hechinger was in Cincinnati yesterday.

SUN SHOWS HERE TUESDAY

This old time favorite tented attraction will arrive in Maysville Tuesday, June 4, and will give two of its superb performances here on that day, afternoon and night.

The dogs, ponies, sea lions, elephants, etc., all have new acts now, the clowns are right up to the minute and the show this year is the best in the history of this famous amusement enterprise.

REGISTRATION NOTICE

All male persons residing in the county of Mason, who have, since the fifth day of June, 1917, attained the age of twenty-one years, shall be subject to registration in accordance with regulations prescribed by the president.

Each person will present himself to the Local Board for Mason County at Postoffice Building between 7 a. m. and 9 a. m. on June 5, 1918.
Mason County Local Board.
SHEPHERD ARN, Chairman.

SAFE NOW TO BUY OHIO LIVE STOCK

The following letter has been received by Captain C. M. Phister, which is self-explanatory:
Mr. C. M. Phister,
Maysville, Kentucky.

Dear Sir:
Having received official information from the Ohio State authorities that herd diseased with anthrax has been destroyed, premises cleaned and disinfected, no new outbreaks reported.

We are of the opinion that it is safe for us to accept live stock from Ohio, provided said live stock are accompanied by an official health certificate or permit from this office.

This will be your authority to accept for delivery in Kentucky live stock accompanied by an official health certificate or permit, as above mentioned.

Very truly yours,
S. F. HUSSELMAN,
State Veterinarian.

SALE OF PURE-BRED CHICKENS

Donated by Patriotic Citizens—Proceeds Given to Red Cross.

Several of Mason county's patriotic pure bred chicken raisers have contributed a portion of their flock to be sold on next Monday at 1 o'clock p. m. in front of the Court House, and the entire proceeds of the sale will go to the Mason County Red Cross.

The offerings will be of the very best stock and should sell at fancy prices.

Those making donations with the number and breed of bird follows:

Thomas A. Duke—Trio Anconas.
Charles W. Conrad—Trio Rhode Island Reds.

George A. Dodson—Trio Anconas.
Charles Rosenstien—Trio White Plymouth Rocks.

Judge H. P. Purnell—Trio Anconas.
James M. Collins, Jr.—Two pairs pure bred Homer Pigeons.

Mr. and Mrs. Carl Dodds and Miss Lucie Smith will go to Mt. Olivet tomorrow, where Mr. Dodds will assist Judge W. T. Kenton in launching the War Savings Stamp Campaign in Robertson county. There will be a conference in the afternoon and in the evening a splendid musical program will be rendered.

A large party of ladies and children spent yesterday afternoon and evening at beautiful Beechwood Park, an ideal place for an outing of this kind, and it is predicted that this will be one of the most popular recreation places in this section this summer.

Hit the other fellow first. It is more blessed to give than to receive.

ADVANCE UNCHECKED

RIGHT BANK OF MARNE REACHED BY GRAY COATS

More Than 45,000 Prisoners and Far in Excess of 400 Guns Have Been Taken by Enemy, According to German Official Communication—Americans Make Successful Raid.

Washington May 31—A successful American raid today in the Woerre sector, in which the enemy's advanced positions were destroyed and losses inflicted in killed, wounded and prisoners, is reported in General Pershing's evening communique. The dispatch follows:
"In the course of a raid executed this morning by our troops in the Woerre sector, our technical detachments destroyed the enemy's advanced positions. At the same time, our raiding party inflicted losses in killed, wounded and prisoners."

Berlin, Via London, May 31—More than 45,000 prisoners and far in excess of 400 guns, and thousands of machine guns have been taken by the Germans, according to the German official communication issued today.

"On the front from Noyon to the west of Rheims, our attacks are progressing favorably," says the communication.

The text of the communication follows:

"There have been artillery duels of varying intensity and minor infantry engagements."

"We have closely pursued the enemy retreating from the Allette front. South of Oise and across the Allette, we captured the Breigny-St. Paul Crosby-Loire line."

"North of the Aisne in constant fighting we drove the enemy back by way of Bleux-Chavigny."

"To the south of Soissons the French brought forward cavalry and infantry for a violent counter attack. They were caught with disastrous effects by our fire and defeated."

"We have crossed the Soissons-Hartennes road."

"French divisions which were brought up in the direction of Fere-En-Tardenois from the southwest across the Marne and from the southeast were unable anywhere, in spite of their desperate counter attack to offer successful resistance to our advancing troops."

"The rear positions of the enemy at Archy and Grand Rozoy were pierced. To the south of Fere-En-Tardenois, we reached the Marne. The heights of Sainte Gemme, Romigny and Champagne are in our possession."

"On the southern bank of the Vesle, to the west of Rheims, Germigny and Thillois were captured."

"The number of prisoners and booty are increasing continuously. More than 400 guns and thousands of machine guns have been taken."

Fall of Rheims Believed to Be Matter of But Short Time

London, May 31—The Germans in their Champagne offensive in France have now reached the right bank of the river Marne on a ten mile front, according to a statement given today by the British general staff.

The message says that the Germans have not yet entered Chateau-Thierry but that they are attacking heavily there and to the northward. The announcement which is said to express the opinion of the general staff continues:

"The situation around Rheims is not quite clear, but if it is not already lost it seems clear it must fall very soon."

"Yesterday, the French were driven back to a line from Noyon to Soissons."

Homeward Bound Transport Sunk

Washington, May 31—Loss of the homeward bound transport, President Lincoln, was reported today by Vice Admiral Sims. The message was brief, merely stating that the vessel was torpedoed at 10:40 o'clock this morning and went down an hour later. It made no mention of casualties.

Navy officers waited anxiously tonight for further details, but as the

attack occurred in daylight and the ship remained afloat for an hour they felt certain the casualty list would be small and probably limited to a few men killed or injured by the explosion.

The President Lincoln was a big former passenger liner of the Hamburg American line. She was one of the German ships taken over by the United States at the declaration of war.

WHAT'S THE FARE, PLEASE?

Harrison County's Grand Jury Report Will Chase a General Rush to Cynthiana of the Members of Dry Throats.

The Harrison county grand jury, which adjourned Thursday, reported that "a few physicians with large practice appear to have not given any prescriptions for whiskey" but that "a number of physicians appear to be devoting a considerable portion of their time in writing whiskey prescriptions" and here's the official wording:

We have examined the prescription books of the two drugstores in Cynthiana selling whiskey on prescription and find what while some of the physicians of the county have not given an unseemly number of prescriptions for whiskey, a number of physicians appear to be devoting a considerable portion of their time in writing whiskey prescriptions. The Grand Jury is of the opinion that the local option laws are being grossly violated in this respect, but by reason of the limited time we are permitted to be in session we have been unable to thoroughly investigate this matter.

We are of the opinion that a Grand Jury could well devote at least a week in investigating this evil and returning indictments against those physicians guilty of violating this law. We find that between January 1, 1918, and May 28, 1918, over two thousand prescriptions for whiskey have been filled by the two drug stores selling whiskey in Cynthiana.

A few physicians with large practice appear to have not given any prescriptions for whiskey, and it occurs to this Grand Jury that if some of the most reputable physicians do not find it necessary to prescribe whiskey in their practice, that others might well profit by their example.

While we do not desire to shirk the burden of investigating this matter from ourselves, we recommend that the September Grand Jury investigate the practice.

The funeral of Mrs. Dollie West, who died yesterday morning at her home near Springdale, will be held this afternoon at 2:30, interment in Bethany cemetery. She is survived by her husband and three small children.

Any man can view trouble calmly, provided it isn't his.

TO ICE CONSUMERS

You Will Be Able to Get Your Ice Tomorrow From the Wagons.

Having been compelled to cease Sunday operations because of the intervention of the Commonwealth's Attorney, who waved the indictment flag at those engaged in this business, there was great inconvenience in this community last Sunday, and it was wholly among the poorer classes of people, who cannot afford the luxury of a refrigerator. A conference with the proper arm of the law has eliminated the trouble, and tomorrow and every Sunday during the hot term the wagons will make their regular ice deliveries, which is a sensible thing and a work of absolute necessity.

NEW PASTOR TO TAKE CHARGE TOMORROW

Rev. R. B. Bailey, who accepted the call to the pastorate of the First Baptist Church here several weeks ago, will arrive today with his family from Arkadelphia, Ark., and will preach his first sermon tomorrow morning. Rev. Bailey was not only pastor of the Arkadelphia Baptist Church but was also a teacher in the Arkadelphia Baptist College. He comes here with a splendid record as a pastor and pulpit orator and the local church feels quite fortunate in securing his services.

The Daughters of the Confederacy will meet Monday afternoon at 3:30 at the Maysville cemetery to observe Decoration Day.

Mr. Harry McNutt of Manchester, Iowa, is visiting relatives and friends in this city and county.

WILL TEACH IN THE MAYSVILLE HIGH SCHOOL

Yesterday Miss Scottie Stevenson tendered her resignation as a teacher in the Washington Consolidated School to accept the position as instructor of Home Economics in Maysville High School.

Miss Stevenson is a graduate of our local High School and also of Miami University, Oxford, Ohio, and comes highly recommended to the Board of Education.

PUBLIC SALE

My household and kitchen furniture, chickens, garden hose and several other articles will be sold at public auction on the premises at 1008 William street on Saturday, June 1, at 1:30 o'clock.

JOHN D. WOOD,
H. C. HAWKINS, Auctioneer.

Messrs. Andrew and William Taylor left yesterday to join a tank training camp in the East.

See That Beater!

It is mounted on the axle—no chains to give trouble—no clutches to wear out—extremely simple in design. With this exclusive construction there follows distinctive savings that can be gained in no other way—advantages that mean more years of service, lower cost of maintenance, greater ease of handling and better quality of work. You get extra value in the

JOHN DEERE SPREADER

The Spreader With the Beater On the Axle

Easy to Load from the front to the rear—only 38 inches to the top of the box. You see where every forkful goes. A boy can load it.

The Drive Wheels Are High. The draft is not sacrificed. High drive wheels save horseflesh.

The Beater Drive is durable and strong. It has the same principles, and is as simple as the triple-gear drive power. Gears are inclosed in a dust-proof case. They run in an oil bath. No dust or dirt can reach them.

Simplest Spreader Built. Only half the castings on it necessary on other spreaders. No clutches or chains. Main working parts mounted on the rear axle. They can't get out of line,

cause binding, heavy draft and breakage.

A Boy Can Operate It. Tell him where to set the feed lever and he only needs to put the machine in and out of gear. That's all there is to it.

Revolving Rake Insures even spreading. No bunching or choking. Every foot of ground is covered—heavy or light, to meet field conditions. Wide-spread attachment can be furnished.

Straw-Spreading Attachment makes the John Deere a two-in-one machine. Only one man required to operate it. A thirty-minutes job to take attachment off spreader. Does perfect work in all kinds of straw.

We have a full line of quality implements we want to show you. Including:

CHEMISTS PLAYING BIG ROLE IN MEETING EMERGENCIES OF WAR — DEADLIEST OF GASES HAS BEEN DISCOVERED

New York—Again the American chemists are demonstrating their capacity to meet extraordinary or even entirely new demands in order that the Government may be better prepared to maintain our armies in France against German attack.

The chemists have solved the dye problem. They have shown to the Government authorities how to obtain from an inexhaustible resource—which is the atmosphere—all the nitrogen that is needed both for war purposes and after the war for peaceful industry. Chemistry, in association with other science, is gradually but surely utilizing the various potash deposits in the United States, so that in some measure we may be relieved of the emergencies occasioned by a scarcity of this important product.

Science and invention have perfected apparatus, which is to be used in the war, of a kind which three years ago would not have been dreamed of. Now, fairly authoritative announcement comes from Washington that the chemists have matched or overmatched Germany in the production of military gas, for our chemists have discovered a formula by means of which the deadliest of gases, easily handled and to be conveniently utilized by the armies, may be made.

Early in the winter the inference was strong that the Government was preparing for the manufacture on a very large scale of poisonous gases with which our soldiers in France

could be supplied. American chemists and manufacturers have perfected the best of the gas masks, the basis of which is a peculiar weave of cotton. A million of these masks are now under construction. But these are only for defense against German gas attack.

The poisonous fumes which our chemists have discovered are said to be as deadly, almost, and as instantaneous in their effect, as are the fumes of prussic acid or carbonic acid gas. The formula is in the hands of those who are operating a great poisonous gas plant.

Early in the winter representatives of the Government visited manufacturers at Niagara Falls for the purpose of learning whether or not the industry there established could furnish an enormous amount of electrodes. The managers of this industry informed the Government's representative that it would be essential for the Government to lift certain restrictions upon the use of electric power at Niagara if a contract of that kind were to be accepted and executed.

Washington must have received information of that kind by telegraph for almost immediately the restriction was removed. The Government wanted a very large amount of electrodes. Electricity of high power and great heat, it is understood, is used in the manufacture of poisonous gases. And there is no apparatus which can safely and economically be employed in the use of this great heat electricity excepting these electrodes.

The purpose to which the electrodes were to be put was, of course, no affair of the manufacturers of this apparatus, but it was inevitable that they should surmise that the Government was about to begin the manufacture of poisonous gas upon a very great scale, with intent to supply this gas to our soldiers in France.

Now it is learned that this inference was fully justified. The chemists have shown the Government a formula by means of which the deadliest of gases of a kind that can be utilized for war purposes can be economically manufactured, and the Government, in its great plant, is utilizing in the manu-

facture of these gases vast quantities of electrodes.

So also other apparatus which may be of the highest avail for our armies that are fighting in France and Flanders has been perfected. The belief prevails that within a short time it will become a matter of common knowledge that science and invention combined with patience and perseverance have perfected the best kind of aircraft and the best motors for driving the aircraft.

A British military authority who was recently permitted to witness a test of the improved Springfield rifles did not hesitate, after the test was ended, to say that, in his opinion, the Americans had perfected the best army rifle, and he hoped that the entire American army would be speedily equipped with it. He spoke of it as a wonderful gun. So also our machine gun when finished will be unsurpassed by any other, and the Ordnance Department, if the war continues, will be able to supply our armies and the navy with the best type of great guns.

On the first day of the campaign for subscriptions to the Red Cross war fund there came an announcement that in the early business hours of that day George F. Baker had subscribed \$1,000,000. In the mid-week of the campaign announcement was made that Andrew Carnegie had subscribed \$1,000,000.

It was inevitable that the comment should be made that, in all probability John D. Rockefeller was waiting till the closing hours of the campaign before making his subscription.

Mr. Baker's subscription was entirely personal, although it was announced through the committee, of which his daughter-in-law, Mrs. George F. Baker, Jr., was the chairman. The Carnegie subscription was made in the name of the Carnegie Foundation. Although the Carnegie Foundation was established by a gift of Andrew Carnegie, yet the subscription of \$1,000,000 which was made in the name of the foundation was not Andrew Carnegie's personal subscription.

The Rockefeller Foundation, which was established by munificent gift from John D. Rockefeller, might make a subscription to the Red Cross fund, but that would not be John D. Rockefeller's gift.

One gratifying feature associated with the campaign for Red Cross subscriptions last week was the payment of much the larger part of the subscriptions in full although under the terms of the proposition it was possible to pay in installments. So also throughout the country the understanding is that the larger part of the subscriptions were paid upon the spot in cash.

EDUCATIONAL WORK IN TRAINING CAMPS

Educational classes in the army camps form an important part of the work of the Committee on Training Camp Activities. This work is maintained with the help of local committees. One of the ways in which these local committees are cooperating most effectively with the camp forces is in the securing of teachers of French and other subjects. The men are eager to prepare themselves for the time when "somewhere in France" they will meet the men with whom they are to fight side by side. The War Recreation Boards in many cities are making this possible by providing teachers not only at the camps but in the communities. Atlanta, Ga., for instance, is furnishing French teachers for the Y. M. C. A. educational director at camp; Burlington, Vt., (Charleston, S. C., Chicago, Ill., where a five hour trip is involved for the teachers going to Highland Park.) Indianapolis, Ind., Pensacola, Fla., San Francisco, Cal., Spartanburg, S. C., Minneapolis and St. Paul, Minn., and

many other cities are performing similar services. In Alexandria, La., a grammar school has been opened in the evening for classes in French and History. In Chattanooga, the Board of Education is attempting to supply the educational material necessary for the 200 men enrolled in classes in camp, many of whom can neither read nor write. Three hundred fifty arithmetic sent to the War Recreation Board by the American Book Company of Cincinnati are being put into excellent use at camp.

The University of South Carolina at Columbia is giving courses in French, History, Mathematics and Topography at a nominal rate. Saturday night lectures are being given at the base hospital at Camp Cody by teachers from Denning High School. This school will be open evenings for classes in French, Spanish, Mathematics, Science and History. The educational work for the men at Fort Bliss has been taken over by the president of the University of Texas, who has assigned five university instructors and three volunteers to the work, the army providing transportation to the camp for the instructors. Two thousand men were enrolled in the classes. At Macon, Ga., an educational course, has been arranged giving high school and college credits.

The men at the Navy Yard, through the courtesy of organizations in Philadelphia, are having instruction in automobile mechanics, electricity, typewriting and surveying, as well as in academic subjects. The Universities of Wisconsin and California are sending instructors to the nearby camps.

Unusually allied to the educational work at the camps and in the communities is the movement which has spread rapidly through all the camp cities to collect books and magazines for the men in camp for use at the Y. M. C. A. recreation huts, the base hospitals, the barracks and in many instances in the khaki clubs in the communities. In all of this work the city libraries have been most helpful in acting as clearing houses and in sorting and grading the books before they are sent to camp. The libraries of a number of cities are throwing open their facilities to the soldiers on Sunday afternoon and in the evenings when the men are in town. Many of them have established branch libraries at the camps.

Many interesting plans have been devised for collecting the books and arousing the interest of the communities in the project. In El Paso the Boy Scouts helped in collecting the books which were catalogued by the public library in units of one hundred. At Nogales, Ariz., boxes were placed in various parts of the city were contributions might be made regularly. Atlanta and one or two other cities made use of laundry wagons which gathered up the books as they made their collections. The hotels were asked to gather up the magazines left by their guests. Through the school children of Augusta, circulars telling of the movement and providing reading matter for the soldiers, reached the homes of the city. The Girl Scouts were active in helping to gather the material. The local committee of Dayton secured a large collection of technical and mechanical magazines through advertising agencies. The public library of Washington undertook the task of supplying with books and magazines all nearby camps, soldiers' clubs, rest rooms and detached guard stations. Moving picture films were used as a medium of appeal for reading matter.

WOMEN THE SAVERS

(By Laura Buffum)

When it comes right down to it the women of the country are the savers. They are the home managers and they know what thrift means whether it be in food or money. This task, which none of us can afford to shirk—

the saving of food—is the big part of the winning of the war that the Soldiers of the Soil are called upon to do. These Soldiers now become Colonels of Conservation and the National War Garden Commission will send anyone a catalog and drying manual free for a two-cent stamp to pay the postage.

That part of food thrift, the canning of vegetables and fruits, becomes again our patriotic duty. Both in city and country those of us who didn't when the first call came, should now. Those of us who did, should do more. "It is no longer a question of doing our bit, but of doing our utmost."

Every woman cannot have a garden but nearly every woman may do some canning. Everything in the right direction helps. If every woman of limited time and facilities would can only six jarsful, it would mean at least one hundred million jars of food. The allowance of one pint jar of vegetables and one pint jar of fruit for every day in the year for every family out exceeding five persons is none too much, and should be increased by all who are able to do so.

By canning fruits and vegetables, you will be provided for winter use, foods, the consumption of which will enable you to draw less heavily on wheat. You will have saved a surplus which might otherwise be wasted. You will be having food essential to health, which, if purchased fresh in winter, would in most places bear the added cost of transportation and cold storage.

It is necessary for each family to grow and preserve food for itself in so far as practicable—necessary to get back to the habits of our forefathers, whose household became producing and manufacturing plants for their own maintenance.

Let one of us, women of America, fail to put our houses in order for the business of canning—then more canning—until we have done our utmost.

I will be glad to answer any question written on one side of the paper and sent to me in a self addressed envelope.

Another objection to following women leaders is that they would always be wondering if they were properly buttoned up at the back.

Sometimes a little boy is so opposed to wasting food he uses his tongue for a napkin.

WHAT'S THE REASON?

Many Maysville People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endorsed by people all over the country and by your neighbors in Maysville.

Mrs. W. A. Schatzmann, 605 East Second Street, says: "From the benefit I have received from Doan's Kidney Pills, which I buy at Chandler's Drug Store, I have every reason to recommend them. Whenever my kidneys have been irregular in action or I have suffered from weakness and lameness in the small of my back, I have used Doan's Kidney Pills. They have always proven sufficient to quickly cure and attack."

Mrs. Schatzmann is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS—the remedy backed by home testimony, the same that Mrs. Schatzmann uses—the 60c all stores. We Offer You Here Some Very Unusual Bargains in Maysville Homes

The five-room house of the Misses McHugh located at No. 220 Walnut street. Water and gas in the house, also nice garden, large enough, however, to raise sufficient vegetation to supply small family.

The seven-room house of Mrs. Mary D. Marsh located No. 329 Forest avenue. Large lot, bath, water and gas. This is one of the very best neighborhoods in our city, and you will not have an opportunity to buy a home in this locality every day. For particulars as to price terms, etc., see the owner or the undersigned.

Cottage home of Mrs. T. R. Wilson located No. 448 Forest Avenue, lot with a great variety of fruit, garden, etc., also garage on back of lot. Water and gas in the house. Price very cheap when location is considered.

CALLS 280,000 MEN

Washington, May 31—Official announcement was made today that 280,000 men will be called to the colors during June. They will be ordered to report June 24, but it has not yet been determined to what camps they can be assigned, so the list of appointments is for the present being withheld. The quota is based on estimates of the space available for the men in the camps and cantonments. If the rate of shipment of troops across is again raised still more men may be called. In any event the probabilities are that enough men will be called for special service to round the number out to 300,000.

REV. FINNELL TO BECOME SECRETARY OF PENNSYLVANIA UNIVERSITY

Rev. J. Leslie Finnell, for the past several years pastor of the Mill Creek Christian Church, has resigned to accept a position as secretary of Pennsylvania University, Lexington. Rev. Finnell has been one of the most popular and successful pastors of the Mill Creek Church and it is with genuine regret that his friends and the members of his congregation learn that he is to leave. He will assume his new duties on July.

Mr. Edward W. Breen, formerly of this city, being a brother of Mrs. Roger L. Devine and Mr. Thomas M. Breen, has recently purchased the interest of Mr. Baylor Hickman and the Forman heirs in the Forman-Breen Co., Louisville, manufacturers of harness and leather goods, and is now the sole owner. Mr. Breen's many friends here will be glad to know of his success in the business world.

Messrs. Harold Pollitt and Murray Simpson, who joined the Hospital Corps of the United States Army at Cincinnati last week, leave tomorrow for Fort Thomas.

Mrs. William Freeman and daughter, Miss Dorothy, of Chicago, are the guests of Mrs. R. C. Nash.

Y. M. C. A.

Wants Automobile Drivers For France
—A Good Chance For Men Who Are Out of the Draft Age to Show Their Patriotism—
A Chance For the Old Inebriates.

How would you like to drive a motor truck for the Y. M. C. A. in France?

Here's a chance for you, if you can meet the requirements. The National War Work Council of the Y. M. C. A. desires immediately 100 expert men who own their own cars and know enough about them to make minor repairs if necessary for its motor transport service with the American Expeditionary Forces and the French armies. This service offers a great chance to the man who is beyond draft age, is in sound physical condition and wants to get across. "While we desire as many volunteers as possible who can contribute their services," says the Council's statement just received here, "we welcome the man of the highest type who cannot afford to go overseas at his own expense. We don't pay high salaries, but men with dependents are assured that their families will be amply provided for while they are in France."

It is hoped to secure at least 100 men of this type during the present month. It is by no means a sinecure, for the motor truck drivers are in the very thick of things along the western fronts. In the recent German drive the Y. M. C. A. trucks have been turned into ambulances. But it offers an opportunity to do a great big bit for the fellows who do go "over the top."

"We want the highest grade of men," says W. O. Wilson, Recruiting Secretary for the Y. M. C. A. motor transport service in New York, in a statement to this paper. "Their duties will require unusual versatility. At one hour of the day they may be in conference with a division commander regarding questions of policy, and later they may be bossing a crew of men in the loading or unloading of the truck. Recruits for this service may be able to 'meet the colonel' on equal terms and at the same time direct the work of men in the most subordinate positions."

"Opportunities for courage under fire won't come to the recruits in this service every day. For the most part, they will drive and take care of their own trucks, cautious and scout cars. Mechanics have been enlisted to do the intricate repairing. But there is also the possibility for service in an emergency. Our drivers may be called upon to jump from their own trucks to pick up a shovel and feverishly help in the digging of a trench; the construction of a Y. M. C. A. hut may require an extra man; whatever the service, our Y. M. C. A. men must be prepared."

The post exchange work, Mr. Wilson further explains, is a large field for business men of proved ability as organizers. The post exchanges are the "general stores" of the camps and trenches; everything is sold there and they are the assembly centers for the men when off duty. To keep them running at their maximum efficiency requires that the motor transport service be efficient, even in the face of difficulties. Men who can coordinate transportation, Mr. Wilson declares, will find no limit to the opportunities given by the service which the Y. M. C. A. is doing at the request of the Allied governments.

This is the chance that those fellows who are all the time saying "you ought to be glad that you are young so you can fight for Uncle Sam," to get into the service and do their bit. You know it is easy for the fellow who is out of the draft to say, "I would go if they would have me." They will!

DIFFICULTIES

In Obtaining Trained Agricultural Workers—4,018 Regular Members Have Left the Service to Engage in Military or Naval Service.

Washington, May 31—Some indication of the difficulties experienced by the Department of Agriculture in its efforts to stimulate production; to assist the farmers of the Nation in improving and extending their operations, in combating animal and plant diseases and insect pests and in other directions; to maintain the efficiency of the Meat Inspection Service and of the National forest organization; and properly to administer the 31 regulatory laws under its jurisdiction, is given in a statement issued by the department.

According to this statement 6,048 regular members of the department have left the service to engage in other occupations or have entered the military or naval service since the declaration of a state of war with Germany on April 6, 1917. Of this number, 1,537 have joined the military and naval forces, and the services of 4,511 employees, including 958 women, have been lost to the department in other ways. The State Relations Service, for instance, which supervises the agricultural-extension work in co-operation with the State agricultural colleges, has lost 867 men and 550 women, the Forest Service 729 men and 89 women, the Bureau of Animal Industry 1,312 men and 55 women, the Bureau of Markets 293 men and 47 women, and other branches, such as the Bureau of Chemistry, the Bureau of Plant Industry, and the Weather Bureau have been heavily drawn upon. Most of these employees are experts in their particular fields and were performing important duties in the department which required long training and peculiar qualifications—some of them very special technical qualifications.

Under the Food Production Act of August 10, 1917, the Congress made available to the department an additional appropriation of \$11,346,400 for the extension and development of its activities in many directions and directed the department to carry out its intentions in this respect. The department, therefore, has been in the position of having to increase its forces very considerably when, at the same time, it has been losing large numbers of its most effective and trained employees. The difficulties in securing men of the requisite training and of retaining those already in the service have been very great.

Mr. Frank S. Tolle, for the past several years city editor of the Daily Independent, leaves Monday for Lexington to accept a similar position with the Oerald.

Miss Dorothy Hockaday, of the Public Ledger staff, is spending a few days with Mr. and Mrs. William Hockaday, at Lexington.

LOST—Old-fashion gold Locket and Chain in small purse on Second street Friday, May 25. Return to Frances Maltby at this office and receive reward. 25-31

ENLARGE PLANT AT RUSSELL

Chesapeake & Ohio to Make Improvements There—Exact Amount to Be Expended Has Not Been Made Public by Railroad Officials.

In connection with the Chesapeake & Ohio railroad company's 1918 improvement program, Russell, will also come in for a large slice of the road's \$18,000,000, it has become known. The exact amount which the company will spend there has not been announced. Blue prints and specifications have been completed.

Those will be changed somewhat to conform with the change in the budget from \$21,000,000 to \$18,000,000, according to official advice. The improvements will include increased round house facilities at the freight terminal as well as more trackage.

One of the necessary improvements is the addition of thirty-five round stalls for the new engines. This was made necessary last winter when the thirty-five large freight engines were frozen, costing the road thousands of dollars to put them back into commission.

The Russell improvements, like these at the Huntington shops, will be started as soon as possible. The government has requested that all roads, having been empowered to spend their appropriation, complete the work as soon as possible. The contractors for the work have not been announced.

MEMBERS OF HOUSE VOTE TEN BILLIONS TO MAINTAIN ARMY

Washington, May 31—The largest annual army appropriation bill in history, carrying \$12,041,682,000 and authorizing the President to call into military service all men who can be trained and equipped, was passed late today by the House and sent to the Senate.

The House broke its record for speed on an army bill by taking the final vote after three days of debate. The measure is framed to provide for an army of three million men during the coming year, in accordance with the government's revised program for rushing soldiers to France. Some of its big items are \$6,315,135,000 for the quartermaster corps; \$3,356,000,000 for ordnance; \$1,028,000,000 for the engineer; \$990,250,812 for aviation and \$267,000,000 for the medical corps.

A provision prohibiting the use of stop-watches or other speeding up devices in plants where money provided in the bill is spent was adopted by a vote of 63 to 59.

Air is light, but some people put on more airs than they can carry.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty years, and has become known as the most reliable remedy for Catarrh.
